BOUQUETTE SENIOR LIVING

January 10, 2021 – Hart House Covid Outbreak Update

All residents have been tested and results are negative. All staff have been tested and results to date are negative – 4 results are pending. Residents and staff will be retested on January 16th per MHO direction.

Outbreak protocols continue and I am happy to report that all residents and staff are doing well. We held a family zoom conference today and we're are grateful for their continued confidence and support.

Staff and leadership across our organization have been quick to jump in and offer assistance of all kinds to Alana Harry, Executive Director of Hart House, and her team.

Sincerely,

Kris Coventry
Chief Operating Officer
