

Trillium

BOUTIQUE SENIOR LIVING

January 11, 2021 – Hart House Covid Outbreak Update

All residents continue to be symptom free and are doing well. One staff member swab pending, all other staff results are negative. Affected staff member continues to isolate at home and is doing well.

Island Health Covid Response Team have been very supportive and have expressed their kudos to Alana and the Hart House team for their high level of preparedness and containment strategies.

Ongoing support from the community is very much appreciated.

Sincerely,

Kris Coventry
Chief Operating Officer
