BOUTIQUE SENIOR LIVING

## January 12, 2021 – Hart House Covid Outbreak Update

We're happy to report that all residents remain symptom free. All staff have been tested and results are all negative. Our team member who remains home self-isolating continues to do well.

An audit completed yesterday at Hart House by Licensing recommended additional isolation carts so that one is located at each resident suite and this has been implemented. Licensing also recommended that the inside of the isolation carts be added to the cleaning and disinfection schedule and this has been completed. Audits of staff hand hygiene and donning and doffing of PPE was completed by licensing today and compliance was 100%.

Invitations have been sent to families to join us for a second zoom call on Sunday for a one-week update and discussion.

The support from our community partners continues to be a source of comfort and is greatly appreciated by the Hart House team.

Sincerely,

Kris Coventry  
Chief Operating Officer
