BOUTIQUE SENIOR LIVING

January 18, 2021 – Hart House Covid Outbreak Update

All residents and staff at Hart House were retested for Covid-19 on January 16th and all results are negative.

We held a second zoom family meeting on January 17th and this news was a welcome relief for certain. The staff at Hart House continue to do an amazing job keeping themselves and our residents safe and we are so grateful for their dedication and commitment.

The first round of Covid-19 vaccines for the residents at Hart House will occur on January 18th. Residents will be vaccinated in their suites and will be closely monitored following their vaccination.

Warmly,

Kris Coventry
Chief Operating Officer
Trillium Communities
